صاحب السمو الملكي الأمير خالد الفيصل

رئيس مجلس الأمناء

HRH Prince Khalid Alfaisal

لحظة قطاف بهيج، وزخات
عطر باذخ، ونحن نحتفل بأكورة
الثمر الواعد لهذه الجامعة
العصرية الفتية.

وكم يسع مؤسسة الملك
فيصل الخيرية، ومجلس أمناء
جامعة الفيصل، أن يزفا إلى
المجتمع السعودي - والعربي -
النخبة الخامسة من طلبة
وطالبات هذه الجامعة، والذين
أنهوا دراستهم في
تخصصاتهم العلمية المتعددة
وحصلوا على إجازتها، التي
تؤهلهم لخدمة مجتمعاتهم، في
المجالات الحيوية، التي أتقنوا
معارفها - النظرية والتطبيقية
- في بيئة أكاديمية متكاملة،
توفرت لها كل أسباب العصر.
وقد أقامت مؤسسة الملك
فيصل الخيرية هذه الجامعة -
ضمن أنشطتها المنهجية -
تفعيلاً لرؤية الملك الشهيد -
يرحمه الله بضرورة قيام صرح
علمي، يقدم البرامج الأكاديمية
التقنية المتخصصة، بأفضل
المعايير المعاصرة، بالتعاون مع
أفضل جامعات العالم.

وقد حظي المشروع - منذ
بدايته - بالمباركة والدعم
الكريم من سيدي خادم
الحرمين الشريفين الملك
عبدالله بن عبدالعزيز، وسمو
سيدي ولي العهد، ما أكسبه
زخماً وعجل مسيرته.

كما تداعى لدعم هذه الجامعة
نخبة من الأخوة الأفاضل - في
المملكة، وخارجها - إيماناً
منهم بتوسيع نطاق
المسؤولية الاجتماعية في
خدمة تنمية الإنسان العربي،
ليكون قادراً على المنافسة -
منتجاً وفاعلاً - في حلبة السباق
الحضاري العالمي.

وقد أسهمت كل هذه
المعطيات في تأسيس
الجامعة، بالخبرة العصرية
العالمية في شتى المجالات،
وعلى أساس نظام من القيم
والأسس الرفيعة، تتجلى في
منظومة سياساتها ولوائحها
ومنهجية صنع القرار، والحوكمة
المسؤولة، وهيئة تدريسية
بكفاءات مهنية عالية، تقدم
المثل والقُدوة لطلابها
وطالباتها، علماً وعملاً وسلوكاً.

واليوم وأنا أطالع المشهد
أباهي بأبنائنا وبناتنا، شبابنا
في عمر الزهور، وثماراً يانعة
لهذه الجامعة، وأستعيد مشوار
التفكير والتدبير والإعداد لهذا
المشروع الحيوي الكبير، حتى
شهدت حفل غراسها، ومضى
الوقت سريعاً لأشهد اليوم
الحفل الخامس لخريجها، ولا
أشك أننا نعتز ونتفائل بهؤلاء
الخريجين، وهم يغادروننا - على
تواصل - مسلحين بالعلم النافع
متوكلين على ربهم ، لإعمار
الأرض إنفاذاً لمشيئته جل وعلا.
وإليهم أتوجه بخالص التهئة،
وأحبي فيهم دأبهم على
المزيد من العلم والمزيد من
النجاح.

كما أتوجه بالشكر إلى كل من
أسهم في هذا الصرح العلمي
الباسق، حتى غدا منارة في
رياضنا العاصمة لخدمة مجتمعنا
وأمتنا العربية. إلى المزيد من
التقدم والنجاح وبالله التوفيق.

It is a wonderful moment, heavy with the delicious smells and scents of the new harvest, as we celebrate the gathering of the first fruits of this modern young university.

We, the King Faisal Foundation and the Board of Trustees of the Alfaisal University, are delighted to present to Saudi Arabian society - and to the Arab world - the first elite cohort of young men and women of this university, all of whom have completed their studies in their various scientific pathways and have obtained the degrees which qualify them to

serve their communities in a variety of crucial fields of vital application to our modern society- fields in which they have demonstrated competency in both theory and practice. The King Faisal Foundation established this University as part of its education mission to realize the vision

of the martyr king – Allah Bless his soul – of establishing a scientific institution that offers specialized academic programs having the best and most up to date formats and resources, cooperating with the best universities overseas.

This noble project, since its beginning, has enjoyed the support of the Custodian of the Two Holy Mosques, King Abdullah bin Abdul Aziz, and the Crown Prince, which has given this mission momentum and pace. This university has also been supported by a distinguished élite of individuals both inside and outside the Kingdom, who took upon themselves the social responsibility of serving the Arab nation, enabling each individual within the walls of this institution to be a unique competitor on the race track of universal civilization.

All these influences have contributed towards founding this university upon a solid base of international modern experience in its multi-disciplinary fields, and upon a base of high moral principles values. This firm grounding is reflected in the system of the university's strategies and protocols, in its regulations and making-decision processes, in its curriculum, in its governance, and in its competent teaching staff - hereby offering the requisite theoretic, scientific and practical ideals, examples, norms and values to its student body.

Today, as this ceremony unfolds before me, I am proud of our sons and daughters, the ripe fruit of this university, and recall the long journey of forethought, effort and planning that was undertaken to prepare for this great day, from the

time that I presided over the laying of the first foundation stone, till today, as I attend this ceremony of the university's fifth graduate students. It is no doubt that we are proud of, and optimistic for, these graduating students as they leave us, taking with them the benefit of knowledge bestowed upon them and, counting on Allah, to proceed hence to reconstruct and reform our world, and to give effect to the will of Allah. I congratulate them, and salute their perseverance in their pursuit of knowledge and success.

I thank, too, all who contributed to this place of science becoming a beacon of enlightenment in our capital, Riyadh, radiating commitment and service to our community and to the Arab nation.

I wish all of you success, progress and the blessings of Allah.

محمد بن علي آل هيازع

مدير الجامعة

لم تعد جامعة الفيصل هي تلك الجامعة الناشئة فقد قفزت قفزات واسعة وكبيره في المجالات التعليمية والبحثية واصبحت ولله الحمد تنافس بقوة بقية شقيقاتها من الجامعات السعودية الحكومية والأهلية.

ان هذا التطور الذي تشهده هذه الجامعة الشابه لم يأتي من فراغ وانما كان بجهود وتخطيط من قبل القائمين عليها وفي مقدمتهم صاحب السمو الملكي الأمير خالد الفيصل رئيس مجلس الأمناء والذي كان لدعمه وتوجيهاته السديده ومساندته الدائمة للجامعة اكبر الاثر في الوصول الى ما وصلت اليه كما ان ما يقوم به مجلس الأمناء من دور فاعل ومتابعة مستمره وبالذات عضو مجلس الأمناء رئيس اللجنة التنفيذية صاحب السمو الأمير بندر بن سعود بن خالد الذي يتابع دائماً خطوات الجامعة و يذلل كل الصعوبات التي تعترض عملها، كما لم يدخر صاحب المعالي وزير التعليم والمسؤولين في الوزارة جهداً لدعم الجامعة وتسهيل كل ما يعترض مسيرتها.

ان جامعة الفيصل قد انجزت ولله الحمد خلال العام المنصرم إنجازات تفتخر بها وتلك الإنجازات شاهد عيان على ما وصلت اليه من نمو وتميز لطلابها وأساتذتها ومن الانجازات الهامة التي تفتخر بها الجامعة على المستوى المحلي هو حصولها على الاعتماد المؤسسي الكامل من الهيئة الوطنية للتقويم والاعتماد الاكاديمي حتى ٣٠ ابريل ٢٠٢٣ م. اما على المستوى

الاقليمي والدولي فقد حصلت جامعة الفيصل على المركز رقم ١٢ من بين ١٢٥ جامعة عربية والمركز الخامس على الجامعات السعودية وذلك وفقاً لتصنيف US News Ranking لعام ٢٠١٦ م. وفي التصنيف نفسه حصلت كلية الطب على المركز الخامس بين ١٢٥ جامعة عربية والمركز الثالث على الجامعات السعودية.

اما في تصنيف Times للعام ٢٠١٦ فقد حصلت الجامعة على المركز الرابع علي المستوى العربي.

وايضا حصلت الجامعة في تصنيف Nature Index ٢٠١٦ على المركز الخامس على المستوى العربي والمركز الثالث على المستوى المحلي.

وتقدمت الجامعة في تصنيف QS للجامعات للعام ٢٠١٥ م من المركز الثامن الى المركز الخامس على مستوى العالم العربي اما على المستوى المحلي فقد حافظت الجامعة ولله الحمد على المركز الاول للمرة الثانية على التوالي في مجال النشر العلمي.

بالاضافة إلى تحقيق طلابها لسمعة عالمية في مجال الدراسات العليا وتخطيهم اختبارات القبول في ارقى الجامعات العالمية وينسب لم تحققها اي جامعة سعودية ومنها على سبيل المثال لا الحصر:

ما حققه طلاب كلية الطب حيث تقدم لبرنامج المطابقة الأمريكي عشرة اطباء من خريجي الجامعة فتم قبول تسعة منهم لدراسة الزمالة الأمريكية وهذه تعتبر اكبر نسبة على مستوى الجامعات السعودية.

إضافة الى فوز احد طلاب الهندسة بالجامعة في منافسة عالمية حيث اهله هذا الفوز الى الانضمام الى فريق أكاديمية انفتحي لهندسة الاداء للعمل لمدة ١٢ شهراً في الاكاديمية في انجلترا.

كما قامت الجامعة بعقد شراكات تعاون مع عدد من الجامعات والشركات العالمية وتوقيع اتفاقيات ثنائية لغرض تطوير البحث العلمي وتوفير التدريب العملي المناسب للطلاب.

لم تنسى الجامعة مسؤوليتها المجتمعية فهي تعي ذلك جيداً وتعتبره جزء من رسالتها ففي هذا المجال اقامت العديد من المعارض والمؤتمرات و المحاضرات التي اهتمت بجميع الجوانب العلمية والثقافية والاجتماعية والترفيهية.

وقد شرفت الجامعة بإستضافة عدد من الشخصيات المعروفة على المستوى المحلي والعالمى قدموا لمنسوبي الجامعة من الطلاب واعضاء هيئة التدريس خلاصة تجاربهم وخبراتهم للإستفادة مما لديهم من رؤى وتطلعات.

ان جامعة الفيصل تفتخر ايضاً بوجود نخبة متميزة من الاساتذة الذين لهم مشاركات بحثية يتم نشر أنتاجهم العلمي في ارقى المجلات العلمية وينظر اليهم بتقدير كبير ويتم اختيار البعض منهم وترشيحهم للانضمام لجمعيات علمية عالمية ففي العام المنصرم تم اختيار صاحبة السمو الملكي الأميرة الدكتوراة/ مها بنت مشاري عضواً في المجلس الدولي للكلية الأمريكية للاطباء وهذا يعتبر فخراً

للمملكة وللجامعه ويعكس المستوى المشرف الذي وصل اليه الاطباء السعوديين.

ختاماً اتمنى لهذا الصرح العلمي الشامخ دوام التقدم والتوفيق واسأل الله ان يديم على هذا الوطن نعمة الامن والامان والرخاء في ظل قيادة خادم الحرمين الشريفين الملك سلمان بن عبدالعزيز وسمو ولي عهده الامين وسمو ولي ولي العهد.

Alfaisal University is no longer an emerging university as it has soared by leaps and bounds in the area of research. Alfaisal records one of the fastest qualitative growth rates in higher education in the Kingdom of Saudi Arabia.

This achievement did not happen in a vacuum but was the product of a great effort and a visionary plan by those who founded the University. Led by His Royal Highness Prince Khalid Al Faisal, Chairman of the Board of Trustees, Alfaisal has prospered exceedingly and abundantly under his wise and steadfast leadership in furthering the founders' vision for the University. We cannot forget the unceasing commitment and continuous follow-up of the Executive Committee and His Highness Prince Bandar bin Saud bin Khalid as it is he who has paved the way for all to perform at an optimum level for the University. His Excellency, the Minister of Education, has spared no officials in the Ministry's effort to both guide and to support the University.

Alfaisal University has completed its infrastructure, thankfully, and we are very proud of the contributions of our students and faculty in the numerous achievements of this past year. Most notable, Alfaisal received full-accreditation from the

National Commission for Academic Assessment and Accreditation until 30 April 2023. This announcement underscored the release of the U.S. News and World Report's Top Arab Region University Rankings. The U.S. News and World Report reviewed 125 universities for academic excellence and Alfaisal University received a ranking of 12th overall. For the Kingdom, Alfaisal received a ranking of 5th overall; for private universities, Alfaisal received a 1st place ranking. Moreover, the U.S. News & World Report ranked our College of Medicine 5th overall in the Arab Region and 3rd in the Kingdom. Additional notable achievements include:

- The 2016 Times Higher Education ranked Alfaisal University 4th overall in the Kingdom.
- According to the 2015 QS Rankings for the Arab Region we have maintained our 1st place ranking for the second consecutive year in number of citations per scientific paper.
- Alfaisal moved up from 8th to 5th overall in the Arab Region for citations; the 2016 Nature Index has Alfaisal ranked 3rd and 5th for national and regional collaborations respectively.

Academically, Alfaisal graduates have proven themselves to be exceptional as they have been accepted into some of the most world-renowned universities for graduate coursework as evidenced by one recent College of Science graduate who was accepted into three ivy-league universities.

Our College of Medicine had the highest acceptance rate in the Kingdom for USMLE applicants as nine of our ten graduates were accepted to sit for the US Medical Licensing Exam.

One of our College of Engineering students was selected by the Infiniti Performance Engineering Academy to work in the UK for 12 - months as a team member in the automotive engineering division.

Alfaisal University's international partnerships and affiliations are integral to the level of academic excellence that we have both achieved and maintained in our brief history. Equally important, many of these partnerships have provided our students with excellent opportunities for both research and field experience.

The University remembers its responsibility to the local community and considers it part of its mission to sponsor exhibitions, conferences, and lectures that focus on scientific,

cultural, social, and concerns of special interest.

Alfaisal was honored to host a number of well-known local and international guest speakers who shared their achievements, within their respective professions, with our employees and students.

Alfaisal University also boasts a distinguished group of faculty that maintains one of the highest rates for research publications in esteemed scientific journals for the region. Additionally, our faculty are members of some of the most prominent international organizations. For example, this past year Her especially noteworthy, Royal Highness Princess Dr. Maha Mishari bint Al Saud became the first female to be appointed Governor of the influential American College of Physicians' Chapter of Saudi Arabia. Both the University and the Kingdom can be proud of this prestigious appointment of a Saudi faculty member.

In conclusion, I wish for our nation's continued progress and success. Asking God to continue to bless our country and to provide all within its borders continued safety, security, and prosperity under the leadership of the Custodian of the Two Holy Mosques King Salman bin Abdulaziz, the Crown Prince, and the Crown.

To the College of Medicine's first batch of women graduates: Congratulations.

To the College of Medicine's third batch of men graduates: Congratulations.

The Hippocratic Oath is one of the oldest pledges known to man. When you recite the Oath, you are making a promise, and moving into a new chapter of your life as healers, knowledge seekers, and researchers. There is no honour as great as this: a life of service to humanity.

I would like to share with you three moments that changed my life and my focus.

The first one, happened on my first night on-call as a medical intern at King Faisal Specialist Hospital. It was midnight and I was called to pronounce dead one of our young & long suffering patient. He had passed peacefully. I walked into the room, and the father was standing to the side silently. He watched me as I examined his son and when I was finished with my examination, he asked me, "Is he dead?" When I said yes, he said الحمد لله, lifted his hands أكبر الله and prayed.

And that was my lesson in Faith, and how it takes you through life and all the life-changing moments that you are going to share with your patients and their families.

The second lesson happened a few months into my internship. I had made the decision to move to the United States, undertake all the qualifying exams and get admitted to a Harvard residency program. The Mass General program. Within 8 months I'd hit all my targets.

As I returned home, I was told that I was not allowed to pursue my career in the United States. In fact I didn't even know if I would be able to practice. And for 4 months I was totally in the dark regarding my future and what it was going to be.

My amazing, generous and supportive cousin Haifa Alfaisal and Prince Bandar Bin Sultan Bin Abdulaziz Al Saud told me when I was heartbroken about not going to Harvard, that I would be adding to Harvard.

I choose to honour and remember all the blessings in my life. The love and care of my parents, my family, my sister. And the person I would like to remember most at this time, and I pray for, is King Abdullah bin

Abdulaziz, the leader and father who set me free. Eventually, with his help, I was able to finish my studies in the US and qualify as a physician.

The third story is about Alfaisal University in 2008. As I was congratulating His Highness Prince Bandar bin Saud bin Khalid Al Saud on the opening of the university, I asked him about admitting women. Having this world class university with state of the art facilities and top notch faculty, when would they be admitted?

For the people who don't know him he is a man of few words but great deeds, a visionary leader, whose meticulous planning is second to none.

He smiled at me and invited me to join the university. Not only that, he put me in a leadership position where I was only reporting to him.

By 2011 we admitted the first women students as undergraduates, and now you are the first batch of women to graduate from the College of Medicine.

Congratulations, everyone.

Message of the Dean

It's a great honor and pleasure for College of Business (COB) faculty, Staff and I to congratulate you. The Graduates of 2016 class.

To see you marching in the graduation ceremony with what is originally your national dress is a testimony to the fulfilment of the late great King Faisal dream: It is a dream that came true where you have the best of Western Styled management education, at the hands of excellent faculty, in an Arab/Muslim context.

You have demonstrated that Faith, Knowledge and Performance are

intertwined and the basis for successful leadership.

This was demonstrated and more so especially at the MBA level, as you were able to strike a balance between family, work and school and succeed; which makes the graduation even sweeter.

As graduates of Alfaisal CoB the best is yet to come. Yes you have been trained to be business professionals and leaders, capable of managing growth and change. Soon you will be immersed in the business world and expected to be the Kingdom's business leaders.

"What an experience!

When I first started my MBA at Alfaisal, I had a vague idea about what to expect! I never thought it was going to be this fantastic, intense and rewarding knowledge journey. Looking back, what I gained is much more than what I signed up for.

Things would have been much more difficult without the support of my family, friends, professors and colleagues .. Thank you

Above all, thanks Mom and Dad for being the amazing parents you are, the backbone of my life and my source of inspiration .. I would not be where I am today without your love and support .. I owe you the world and beyond

This is not the end, but rather the beginning; for learning is a constant quest...

I didn't expect to enjoy studying again, but I really enjoyed the Business Management Program here at Alfaisal, it gave me great insight into the inner workings of how business should be done and how to apply that for kingdom prosperity.

Before I decided to choose this program, I was interested in it and luckily got to visit Alfaisal. After my conversation with program Director, Dr. François and some of the students, I was impressed by the attractive studying atmosphere, nice environment, good facilities and convenient location.

There is so much more you achieve when study at Alfaisal than just a certificate. You gain knowledge, confidence and for me the important part was finally realizing what I want to achieve with my career. I highly recommend this course to anyone who would like to develop their skills.

I would like to thank everyone from Alfaisal, classmates and professors. Wish you all the best and good luck in your career.

Two years ago, we, as MBA students, took our first step for an ambition. These two years haven't been easy. It took hard work, relentless dedication, and sacrifice to reach our goal. Spending the time at Alfaisal University has brought the best out of all of us. The greatest takeaway from this journey has been to become open-minded critical thinkers, because nothing in life can be taken for granted.

Today, we take our next step. The purpose of studying MBA is to give us the knowledge of how to create something that will put our name in the history books. So I say to all our professors who have put up with us for the past two years: Remember our names, because all our success will be credit to your amazing work.

I wish everyone, from classmates to professors all the greatest success and happiness.

Thank you

The MBA program at Al-Faisal University was a personal milestone which contributed both to my personal growth and professional development of my career. It helped me to complement my engineering degree with the business knowledge and leadership capabilities. I greatly benefited from my peers' experiences and input as well as all my instructors' knowledge and passion. As a graduate of the MBA program, I'm prepared to meet the challenges of the global business environment.

The journey is done!

It was a fascinating, rich, and interesting journey. I have already felt missing the lecture days in the middle of the last semester as I told Dr. Francios!

Now as I am writing a testimonial, I remember that day when I was having my first interview with the MBA director, Dr. Francios, and he was trying to explain to me how this MBA program should participate into my life, and I found it exactly as what he said. Having this MBA program is not supposed to change a side of your professional life only, but it should change your whole life!

This is a period of my life where I will keep remembering, keeping favor for those whom changed something in my life, changed my mindset, attitude, or added something to my knowledge.

My experience at Al-Faisal university was very beneficial to me. The level of supervision and support I've received as a MBA candidate has been second to none. Indeed, the knowledge I gained there was both theoretical and practical, transmitted by professors who are expert in their field and who prepared me perfectly well to the business world.

And when it's done, you feel so great. You know that you're able to bring your biggest challenges to success! The MBA has been a fantastic human adventure to me, challenging but I enjoy every moments of it, Of course, I had the opportunity to acquire a solid tool box that enables me today to answer to the future challenges. But, more than this, the MBA at Alfaisal enabled me to learn more about myself and my capabilities. This allowed me to improve my self-confidence and today, I feel stronger than before. I also met incredible people that became real friends for the rest of my life. I am very grateful for this magnificent experience, I thank my God then my mother, my family, my professors and my friends who support me a lot to complete this program. Also I thank all Alfaisal staff for their support and effort to make this program successful.

assumptions challenged constantly. I found the experienced faculty members had both field and educational experience, A dedicated faculty consisting of most updated and innovative professionals with a passion for imparting managerial skills and techniques and the lovely environment that included a mixture of nationalities, was a great opportunity to exchange interests and experiences with other students.

It has been a life enriching experience at ALFAISAL, and I have no doubt that the program will assist me in building upon the pragmatic leadership experience gained in my previous jobs and prepare me for participating in ever increasing positive leadership positions in management.

After spending few months evaluating the MBA programs offered by the local universities I believe I made the right choice by joining the best MBA program offered by the local privet education. I choose the MBA program at ALFAISAL because I wanted to enhance my knowledge, improve my analytical & leadership skills. The MBA involved a lot of real life case studies and reseach which I now feel that I am better prepared to take on the challenges of greater responsibility. I feel that I can still grow, of course, but that I have gained exceptional tools that will help me make a difference.

The MBA program at ALFAISAL acts as a networking platform where I met students from different backgrounds and interests, and learned more about their work background and experience. A talented and diverse cohort make it a well-rounded experience. I have learned infinitely more by working in different teams spanning cultures, ages, backgrounds and motivations, having my

Without my family's support I couldn't have done this, especially my mom. My professors were my backbone from day one. I can never repay them for what they have done for me these past years. A quote that helped me get back up every time I fell was for Walt Disney; "If You Can Dream It, You Can Do It." I never thought I would graduate at 20, but I did it. Continuing my education through Alfaisal university MBA program has been one of the best decisions I've made to improve my knowledge and career. The program gave me the confidence to choose my career path instead of accepting where I was. I always recommend Alfaisal to anyone looking for self-improvement.

I chose Alfaisal university because of the reputation of the institution and the academic curriculum that is offered. For a business professional, like myself, the Alfaisal university MBA allowed for the flexibility that I needed with a busy schedule.

Someone looking for a quality MBA education surrounded by experienced peers and knowledgeable professors wrapped in a family atmosphere must have Alfaisal university at the top of their list.

My four-year journey at AlFaisal University is coming to end. No words can describe how I feel! Happy to start a new chapter in life and sad to leave the AlFaisal family. AlFaisal University has been home to me for the past four years, and the COB was my family. We all worked towards achieving a common goal, which is being the best we can in our chosen field and broadening our horizons. We were all pushed to our limits and encouraged to always give it our all. As I sit here, writing my testimonial, I can finally say that everything has paid off. As I say goodbye to my second home today, I'm proud to say that I graduated from AlFaisal University's College of Business and I will forever be thankful that I got to undergo this experience with such amazing people whom I will never forget and having my family supporting me through thick and thin.

It would be very typical to
start off with "I would like
to thank" this person or
these people, but we should
always show appreciation to
the people who are helping
us excel throughout the
years. There is an aspect in
life that each individual
should keep in mind, it is to
constantly strive for our
parents' blessings. This, by
itself, is a way of life. After
that comes our motivation
and incentives. Keep your
goals straight and never
give up on what you believe
in. Always make sure that
people see you as a source
of help and try to be there
for the ones reaching out to
you. That is how I've been
able to proceed in my life,
career, and relations. Of
course, last but not least,
one of the most important
things that helped me
through stressful times is
the company of food. Keep
your friends close and your

everyone all the best and

The four years at this university marked an entirely new beginning for me. Alfaisal gave me the key's towards expanding my knowledge and help navigate for new ones, and more importantly, how to use them effectively and efficiently. It reshaped my view to encompass a more global perspective, which will help guide my career in business. Moreover, I would really like to thank each member of the Alfaisal faculty in doing their best to help as achieve more. It's been a privilege to be part of this family. In addition, I would also like to extend my appreciation to my parents, whose continuous support drove me to reach this far.

The College of Engineering offers a wide range of engineering programs with the best faculty from around the world. All of whom have brought with them a wealth of experience and the latest educational technologies to their classrooms. We focus on having the students involved in the educational process by guiding their scholastic experience through our adaptation of a student-centric approach to education. This allows students the opportunity to grow as engineers within the classroom, and as active members of society through engaging in many of our community-involved clubs and organizations.

I am confident in the quality of our alumni; every single one of our graduating classes have gone on to pursue successful careers, higher education opportunities and many have successfully started their own engineering companies. We as a university have also continued to expand and progress; we have recently received the highest ranking in the Kingdom for a private university and fifth overall based on the renowned U.S. News & World Report university ranking.

The future engineers of today have to face a more demanding professional world with highly paced technological advances. Our students have to adapt to the changing and increasing demands around them, however I am confident of their success. Our students are given all the necessary tools here at Alfaisal University not only to integrate successfully with the workplace environment but to excel as both reliable and innovative engineers.

Congratulations class 2016, I wish you all the best and success with your future plans.

The help and support of both my family and the AU's family, has been fundamental to my future success. This knowledge has prepared me in many unpredictable ways and will be the key which will open up the doors that will let me gain real world experience and will qualify me to discover and reach many achievements one day.

Some say graduation is a journey that shouldn't be condemned as an 'end', but I think it is so, and that isn't so bad. It is in fact the end of the deep educational journey that extends beyond books and presentation slides. It is the end of a life changing phase full of turning points and personality shifts that happened to me and to everyone around me; a metamorphosis on a whole class scale. It is an end that is also a beginning of many other possibilities, we're at a cross roads and we must part with the best memories of each other, and I do so with the hope that I've touched as many lives as have touched me.

As I hit this milestone in my life and look back, I see the beauty of life was in all the hardships before the ease. رسالة العميد

بعد ثماني سنوات من العمل الشاق، ثماني سنوات من التخطيط، ونحن هنا في هذه الفترة المحورية من تاريخ جامعة الفيصل حيث تم الحصول على الإعتماد الأكاديمي من قبل الهيئة الوطنية للتقويم والإعتماد الأكاديمي.

اليوم تحققت رسالتنا ووصلنا أخيرا إلى ما كنا نهدف اليه.

اليوم تحققت رؤيتنا، مع النشاط البحثي والتعليم المتمركز حول الطالب لنكون جامعة عالمية، أصبح حقيقة واقعة.

اليوم نحن نسير بخطى ثابتة نحو مهمتنا، ونحن نريد أن نهنيئ جميع الخريجين على انجازاتهم المتميزة أكاديميا ومهنيًا.

نريد أن نهنيئ جميع أعضاء هيئة التدريس والعاملين في الإدارة الذين ساهموا في هذا النجاح. نحن نريد أن نعبرعن خالص الشكر والتقدير للإدارة وأعضاء مجلس الأمناء، ومؤسسة الملك فيصل الخيرية لتوفير كل ما نحتاج اليه لتحقيق امالنا.

اليوم، يسرني أن أقول إننا نتنافس مع أفضل الجامعات،

وليس فقط على المستوى الوطني بل أيضا على الصعيد الإقليمي، وقريبا سوف نتنافس دوليا.

سنواصل العمل الجاد وتعزيز هذا الصرح المميز، هذا الإرث العظيم للمغفور له الملك فيصل بن عبد العزيز طيب الله ثراه.

أتمنى كل التوفيق والنجاح لجميع الطلبة الخريجين لدينا في حياتهم المهنية، كما أتمنى النجاح للطلاب الحاليين لدينا في جميع الدراسات والبحوث، والأنشطة الأكاديمية لخدمة مجتمعهم.

Message of the Dean

After eight years of hard work, eight year of planning, we are here at this pivotal point of Alfaisal history where we just been accredited by NCAAA.

Today my message is we finally got what we aimed for.

Today our vision to be a world class university, with research activity and student-centred education, has become a reality.

Today we are in line with our mission, and we want to congratulate all our graduates for their excellent achievements academically and professionally.

We want to congratulate all the faculty and administration who contributed to this success. We want to send a special “thank you” to the administration, members of the Board of Trustees, and King Faisal Foundation for providing us with all that we need to achieve this.

Today, I am glad to say we are competing with the top universities, not just nationally but also regionally, and soon we will also be competing internationally.

We will continue the hard work and enhancement of this exceptional edifice, this great legacy of the late King Faisal.

I wish every success to all our graduated students in their careers, I also wish success to our current students in their studies, research, and community service.

I was looking for a unique learning experiences, one where the skills and knowledge I had already gained in my career could be harnessed and enhanced by a higher level of education. The MBS program at alfaisal university fit exactly what I was seeking. I found an environment designed to promote personal and professional success.

I had an opportunity for an exchange program to University of sherbeooke. Even though my decision to go on exchange was not a quick one, it is safe to say that stepping out of my comfort zone and moving to Canada is one of the best decisions that I have ever made."

"Success has always been a main goal in my life and in order to fulfill this goal I knew it was essential for me to not only enter a field that I am passionate for, but to obtain a job that I love doing. The MBS program has given me the opportunity to reach this significant goal. As a graduate student enrolled in the Molecular and Cellular Biology (MCB) track I have acquired various desirable research skills that are essential to have in order to be a successful scientist.

I opted to join the MBS program at Alfaisal University in August 2014. The time I spent there was well worth it, gaining a new perspective of biotechnology, strengthening my core biomedical sciences, and developing my biomedical research thinking. With the knowledge that I have gained through the MBS program I am able now to apply them on a daily basis.

Without any exaggeration, this program was the turning point in my career and by far the best decision I have made."

"I would like to dedicate my work to Allah Almighty, who gave me the opportunity to come to this university and enhance my academic skills. Without His will I would surely not have accomplished my lifelong dream.

I would like to pay my heartfelt gratitude to the following individuals who have made the completion of this research possible:

I would like to thank my father and mother, for their valuable advice, guidance, generous support and encouragement through this process.

I am also heartily thankful to my teachers and colleagues for their ongoing support and valuable advice during this course.

Finally, a special thanks to my wife, children and friends, who encouraged and supported me throughout my career. "

In the past five years, we
strived & struggled to
finally celebrate finishing a
glorious & exciting
chapter of our lives! Here's
to sleepless nights, chronic
coffee addiction, sacrifice,
commitment, dedication,
persistence, and most
importantly, teamwork!
Without the support we
received from our families,
friends, and each other as
colleagues, none of us
would have witnessed this
day. Finally, we'll start
hearing and reading the
word "doctor" before our
names. The pride and joy
lies not in the fanciness of
this title but in the great
responsibility taken for
having one of the most
humanitarian professions,
the art of Medicine. Last but
not least, I am proud and
honored to be graduating
among a batch full of high
achievers and believers. Our
graduation day is not the
end of our journey; it is just
the beginning of a path
about to be endured for a
better future.

Always try to make a difference, no matter how small it is ! One day you will be surprised how big that difference was in someone's life. let Love, passion and empathy accompany you always in your long journey of self development and in your medical practice. Feel your patients and understand their suffering. Do your best to help them and their families. Finally, be happy in what you do and most importantly love your self ! Those are the lessons I learned and will continue to learn from my mother, loved ones and my tutors so Thank you all for helping me to fulfill my dreams.

be hard to get. So work harder
to make them true! Work
without thinking about exams;
without thinking about results;
rather, think about the

to use your info to help others.
Work with diligence and
honesty. Work and learn from
your mistakes. Work and be

Alhamdulillah we have finally come to our first pit stop on our long journey to becoming physicians. Years of hard work may look like we've done a lot, and we have, yet there's still so much left to do and so much left to learn. Most definitely it has been a long and memorable five years and I wouldn't have enjoyed it without the love and support of my dear friends whom I now consider family. Time and time again, life stops you and allows you to reflect upon it, I believe as an aspiring healer this time came to me on my first day of medical school and again on my last. My passion, interest and desire of not only being a doctor but also one that is loved by her patients inspires me everyday. Congratulations to my fellow graduates, may Allah grant us all what we wish to achieve and more.

At the end of it all, we are here to contribute something positive! Because years from now, we remember how people changed us and also people will remember what we stood for

Looking back at the past five years, I forgot how tedious, tiresome and emotionally debilitating this all has been.

All I can recall is how rewarding, meaningful and worthwhile it all feels now.

They say there is a thin line between "why?" and "why not?" And that the secret of life is to live right on that line. I'm thankful that I won't have to look over at "why not?" and wonder how different things would've been.

This is a special moment for all of us. We will be handed our degrees and set forth as real doctors. I can't explain how much this means to me, and how grateful I am, for all the love and support I was surrounded by throughout the years.

Thank you to my parents, who have been there every step of the way. My sisters, who constantly reminded me why I'm here. My friends, who helped me understand my strengths. My professors, who always guided me. And lastly, to my University, in which all of this became possible.

أحمد الله أن بلغني هذه اللحظة، وكلّ مشواراً مُلئ بالعقبات والصعوبات بالنجاح الذي أعزوه إلى ثقتي الكبيرة بالله سبحانه وتعالى، كما أحمده على اكتساب صداقات عظيمة كان لها الأثر الأكبر والأجمل في نفسي

I can't believe I made it this far.all I know is I couldn't have crossed the finish line without the support of my family especially my mom, your the only one that handles my "episodes" I don't think I would have made it .without you! thank you

To my sister and partner in crime, we might want to kill each other most of the time but I must admit, it wouldn't .be as much fun without you

To my wonderful friends ! I LOVE YOU! thank you for the good times, always having my back and the messed up situations we get ourselves into, its the reason I smile alone like a retard.. Aisha, Lujain M, Ghada, Asmar, Sara G, sara D,Ayana, Samaa, Alaa, and Elaf, and the amazing batch that .I'm graduating with this year

And last but not least I'd like to thank my university for giving me the chance to .prove myself

Never play it safe, go for what you want even if others think its crazy .. always seek those !who fan your flames,literally

"And whoever saves one (life) it is as if he had saved mankind entirely." (Quran, Al-Baqarah, 5:32) I have always dreamt and impatiently waited for that day of graduation when I will become a doctor and help save lives as I have always admired doctors and the noble field of Medicine because doctors can, by the help of God, cure the ill, give comfort to the distressed, and give life to the dying. Looking back at the journey of 5 years, 3 phases in 10 semesters have flown by so fast. The sleepless nights, endless exams, and continuous effort have finally paid off. If it were not for Allah, the love of my parents, the belief of my siblings, the wisdom of my professors, and the support of my friends, I would not be standing here today. To my wonderful batch, thank you for making my journey very fruitful and colorful. We made wonderful memories, stood by one another, and treated one another like family. Studying Medicine was absolutely worth it and I would go back and do it all over again with all the ups

My very first day in medical school I still remember the frustration when we were told to memorize the name of every bone, fossa, and tuberosity of the upper limb. Today as I am a few months away from being an intern I laugh because I still don't remember any. What I really learned in medical school is to never lose focus on what is important. Never forget the sacrifices that your parents made for you to be here and always show them your gratitude and love, for no one can love you the way they do. Remember the support of your siblings who were always there for you when you needed to whine about how bad you did in an exam or when you needed a burger at 1:00 am because you were pulling an all-nighter. Appreciate the presence of your friends who were the only reason you could finish medical school without losing your marbles. Always be true to yourself because before you were a doctor you are a human and only a human doctor deserves the title.

Reflecting on the past years, they have been one of the most intense challenging years I've ever encountered in my entire life. During these years I've learned about how amazingly the human body is created and how fragile it is. I've learned about thousands of diseases and how to manage them. I've learned about caring for patients and how to ease their pain and suffering. I vividly remember the moment when me and couple of my friends thought about our graduation year, it felt like it'd take forever. But guess what? The years passed in a blink of an eye. The journey of becoming a doctor has finally ended and now we started the journey of becoming phenomenal compassionate doctors. My beloved parents, thank you for your continuous support and encouragement. My dear brothers, thank you for being my rock. My friends, thank you for making this journey an amazing one.

"I'm a person who believes in following their dreams no matter what. When I reflect on my 5 years in this institution, I conclude that Alfaisal University has gave me the opportunity to not only make my dream come true, but it also introduced me to the amazing minds in the field of medicine; doctors and professors who are no less than champions, and incredibly supportive classmates whom I consider no less than a family. I was challenged to discover a voice I didn't know I had. That voice has played a central role in my future career and my current role as a student, as medicine is vital to life, to creation, and to existence.

Having been shaped in part by the collegial and creative, yet rigorous environment at Alfaisal, I found myself able to communicate, innovate, and collaborate in ways that enabled me to build successful communications that would stabilize my foundation in my field, and eventually to find a rewarding career.

No words would summarize how grateful I am for this amazing experience in this great institution. I am forever thankful."

Five years ago if you asked me what I would have gained from medical school I would have probably told you "knowledge about medicine" but the past 5 years have been much more. As I reach the end of this journey, I come out as a person not only with the knowledge of medicine but also knowledge about myself and the world around me. From the experiences I have had, I no longer take little blessings for granted. I have gained a bigger heart, and a greater strength to deal with adversity. And its my hope that we can all wake up every morning and show the people around us all the love in our heart.

Fulfilling my dream of studying medicine became possible due to the grace of God, the support of my family and the vision and wisdom of our beloved dean, Dr. Khaled Alkattan, who saw in me what I saw in myself. Without them I would not be where I am today. So many of our dreams first seem impossible, then they seem improbable, and then, when we summon the will and support, they become possible and inevitable. It is not true that people stop pursuing dreams because they grow old. They grow old because they stop pursuing their dreams. So believe in yourself, do good in life, always do what is right, and pursue your dreams. You can make your dreams come true!

My story with Alfaisal began in 2010. Countless thoughts were racing in my head at the time I applied. I did not know what was in store for the institute's future. Will the quality of teaching be as good as one would hope? Will Alfaisal prepare me for the rigorous demands of residency? Will I be able to graduate as a competent physician? Well, the day is finally here! As I sprint to the finishing line of this long journey, I look back with complete satisfaction in my choice of joining Alfaisal and I know I will be able to face any challenges in the future. I have witnessed at Alfaisal a commitment to progress so unparalleled, and so vast in its scope for a university that is still in its infancy. From the heartfelt support of its faculty, to the ceaseless ambition of its students, Alfaisal University remains unrivaled in its race towards excellence.

If you asked me 5 years ago what I'd like to accomplish 5 years from now, I would've said graduate Medical School. I spent 5 years chasing that dream, and now that I am on the brink of graduation and you ask me the same question again, my answer should be 'to complete my residency in Internal Medicine for which I'm ready to chase this dream once again.' But I also know that even if I accomplish that 5 years from now, I'll still not be fully content with myself as I'll have another goal to accomplish then. Yet, as long as I have the passion to chase the goals I create for myself, I know I will never look back or have any regrets. To summarize in the words of Steve P. Reflecting back on the past five years sure is sentimental, Alfaisal University was an ideal place for my voice and often expressive thoughts. Worked with some of the best people through thick and thin and was regularly welcomed with open arms, by most! With this chapter over, we're now faced with quite a drastic change that should be accepted and embraced. Changes are like obstacles on a speed course. They demand your attention and require you to be present. They are coming. They are here. And then they are gone. It's how life comes. Each moment is a procession from the future into the past and the sweet spot is always the present. Live in that sweet spot. Be present.

Starting from other beloved Dean, going through the amazing faculty and TA's, reaching to fellow students. Alfaisal have opened and paved so many ways for me in research and clinical electives. Alfaisal taught me that giving back to society is essential through volunteering. In Alfaisal, we are a blend of nationalities, talents and amazing mentalities that when combined we are invincible. الحمد لله الذي حقق الحلم الجميل ، والصلاة والسلام على خير البرية الأمين ...فها قد تعالت الأصوات ، وامتزجت العبارات ، وتحركت الأنامل لتخط الكلمات ، كي تبقى في القلب ذكريات. أعوام مضت بطوها ومرها ، ، وها هو عام 2016 يعلن تخرجنا. مشاعر مختلطة ، فرحة لنهاية مشوار وبداية مشوار جديد ، وحزن على فراق أحبة لن يتكرروا ولو بعد حين. ستتنتهي تلك اللحظات الجميلة ، سترحل ضحكاتنا معها إلى عالم كبير قارس ، غير ذلك الصغير الدافئ الذي احتوانا 6 سنين ، قضينا فيها أروع أيامنا وأجملها. إخوتي وأخواتي ، طلاب وطالبات جامعة الفيصل ، على بساط المحبة والوفاء التقينا ، وعليها سنفترق. راجيا من الله دوام التوفيق والنجاح لي ولكم. وأملنا في اللقاء "جنة" للأحبة فيها لقاء.

It is just the beginning of a long journey...

A journey that would not have been achieved without the full support of my parents and family. No matter how hard I try, I will never be able to show my gratitude to their support. I'd like to extend my thanks to everyone who helped me in this journey, including my friends, faculty, and administration.

Special thanks to our beloved dean, Dr. Khaled Alkattan, for being an inspiration to all of us.

"Serendipity – that's probably the best word to describe how I ended up applying to, and eventually join, AlFaisal's College of Medicine. You see, AU wasn't my first choice. It wasn't even my tenth choice.

When I joined, the university was barren. We'd be packed into a makeshift lecture hall from eight to five. Our respite was a one hour break. We'd spend it playing Frisbee or cards and eating the same food at the one and only place that offered food on campus.

This place offered me so much – a great education, research opportunities, strong friendships and relationships, and the chance to work alongside the region's most renowned physicians.

AU faculty and students have a shared mentality; they always strive to do better. That's the reason why it is and will forever remain great. It's that very insatiable hunger that makes me proud to call myself an AlFaisal University graduate."

dedication. I am totally grateful to my family's unlimited backing, which always boosts me for moving steps forward in my study. Feeling of their existence is one of the main element to lead me to a such great achievement.

God willing, I feel confident that I will be a chief consultant who would do have a pleasure contribution to integrate with futuristic medical students at my respectful University, Alfaisal. I would love to let them know how proudly I am now, meanwhile, remembering back plenty of interesting years will have been left for participating here as a student.

"As time comes to write a humble words of my Bachelor's graduation. I have well recalled the moments when I graduated from the high school since six years ago. They were the most crucial seconds to make my ambition by applying to the Faculty of Medicine.

Although some students warned me to eschew joining Alfaisal University due to their advanced level and tough curricula, I did challenge myself alongside all to prove that nothing would be impossible.

During the second year in particular, I did experience many academic difficulties even to the extent that the preassigned trajectory would almost be collapsed. I made up my mind ,however, that I would never quit and ever go-away until achieving what I had started for.

Currently, I am pleasant to announce that Dr. Hasan Alarawi is earning excellent graduation and feeling proudness of the won

From interacting with so many bright students and living in the community of Alfaisal, I am more motivated to go home and work very hard on my studies. I am now more intrigued by medicine because I have more realistic view of what it entails and not just and idealized conception.

The teams and people I worked with during my time in Alfaisal allowed to create life long friendships and gain skills that otherwise would have been impossible to learn by myself.

The past six years of my life and experience in Alfaisal has added a lot to me. It improved me on both, personal and professional levels. The multicultural diversity that Alfaisal has gave me a chance to interact and know people from different parts of the world. Being involved in extra-curricular and community service activities helped me adapt to different types of people, and refined my skills of teamwork and leadership, communication and organizational work. I had the honor of founding The Change Team with the fellows which is becoming a leading team at Alfaisal. The experience in Medical Student Association (MSA) and in organizing TEDxAlfaisal, they all were exceptionally amazing! Despite the sadness of my father loss during my studies, it shined the light on some people who stood with me in that difficult period. The experience, support and the priceless moments I lived with special people! They all are unforgettable! Alfaisal has given me the family that everyone wish to have.

I'm writing this testimonial with full of tears, emotions, and happiness. Even though I went through many bad moments but at the end the good ones are the ones who count. I am grateful to all the faculties who taught me Medicine in its best way. At the end of my journey, I'd like to thank every single friend of mine who helped me survive and was part of my life for the past six years here at our home of Alfaisal. I am also thankful for my amazing family and for every moment I get to share memories with them. "When I got into med school, I knew that it was hard but doable. I didn't know what I was up against, I didn't know how difficult it would be, not only the studying but the lifestyle in general. It changed me a lot, I gained weight, went through a lot emotionally, became less social, but I never doubted my ability to go forward and finish what I started. Later, I realized what was the purpose of it all, why am I doing it, and it was as simple as putting a smile on a patient's face, and hearing him/her pray for me, that feeling is indescribable, and I can't ask for more than that. But was that all what I've gained in the past 6 years? for sure not. I gained a lifetime of experiences and memories that can never be forgotten or washed away. And now when I wonder if I were to go back and to it all again, would I? I definitely would, and wouldn't hesitate, not for a second.

"Medical School is an interesting pathway. You start off by thinking you know everything and that it'll be easy but you end up finishing thinking you know absolutely nothing and that you have no idea what to do with your life. You quickly realize that getting into medical school isn't the hard part. The hard part is in fact getting out and finding any training program willing to take you under their wing.

But then you look around and you see your family, friends and amazing teachers who are there to help you. You realize that while it is difficult, anything is possible with the support of those who love you. You look behind your shoulder and you see all those who supported you during medical school are still there for you after medical school.

My message is to trust those around you, especially your parents. They know best after all and without them, nothing is possible. Look up to those who helped you along the way, those who taught you from their personal experience, took the time and effort to benefit you and did it only from the goodness of their heart to see you

"Upon joining Alfaisal University in 2008. However, after doing UPP and First year medicine, it was clear that there is a great vision and great team that can help us compete with other medical students on a worldwide scale. The first step of success is failure; when I failed my 1st 2 years in medicine, I didn't lose hope and I persisted on the path I started and with God's will I am now 10 days away from graduation. I feel much more prepared and ready to face the wide competition worldwide. I will continue the journey I started and I will hopefully reach my goal and make my family proud. Thanks to all Professors and Staff who helped me reach to this moment today; also thanks for Alfaisal for giving me a second chance to succeed.

Five Medical years went and yet, I haven't even started my career. The future may seem frightening and hazy but I do have faith that the training we had at Alfaisal University will enable us to make it no matter what. I will make sure to climb the stairs of success even if they were made of sticks , I will make sure to get up even when I have no one to help me stand again, I will make sure to lift my head up even when I trip. As I come close to open a new chapter of my life, I must not forget all those who have helped me and really made it happen for me. I would like to thank my great mother and my late father. If it wasn't for them, I wouldn't be the person I am now and I do hope I made them both proud of me. I would like to thank all my family and my wife for their great support and kindness. And I must not forget to thank my true friends for their continuous help. I would like to thank Alfaisal University for accepting me and making sure to train me as a safe doctor. After all, if we can't help, atleast do no harm.

Medicine is a piece of cake! However, you choke on this piece and you need almost a lethal amount of caffeine, long nights, and studying while everyone is enjoying vacations in order to get this tiny piece down. You will laugh, you will cry, you will sleep less than most of the population, you will abundantly work hard to reach the top, and you will stumble and get back up. Nevertheless, when you get the job done, you will breathe a sign of relief. Always remember my fellow colleagues; what we are trying to accomplish is one of the most humanitarian acts of all times, so be proud of what you do and show the depth of your humanity.

"I can not believe Five years have passed since I joined Alfaisal University! Being honest, I was not very excited to this journey, as I always wanted to study abroad. Right now, standing at the end of the route, I have to say that I was completely wrong.

Throughout this journey, I lived the best moments in my life. I had many ups and downs, which all contributed to the experience and the lessons that I learnt from. In this journey I gained a lot, from the great education, the lovely faculty, to the enormous opportunities provided to us.

Yet the best thing I gained from this university, the great friends that I made. Or shall I say brothers! Without them, the journey would be dull and boring. The moments that we share, good and bad, the events that we organised, the food I got them (shawerma), the crazy memories and the pranks we enjoyed, I will miss all of that! I would like to also thank the facility department, who opened all the new buildings and restaurants the moment we are leaving. We are not hurt </3

Finally, yet most importantly, I have to stand to the people that I love the most, who I owe

نشكركم على دوركم في أن تكون جامعة الفيصل المكان الأفضل لكم في تحصيلكم وتفوقكم العلمي.

تذكروا - وأنتم تمضون قدما في خياراتكم العلمية والعملية - أنكم دائما موضع ترحيب في جامعتكم. وأننا نتطلع دوماً إلى الإلتقاء بكم في المستقبل كباحثين زائرين، كأعضاء هيئة تدريس، كأصحاب مناصب رفيعة، كموظفين متميزين في مراكزهم الوظيفية، أو كخريجين وأولياء أمور خريجين مستقبليين.

يسرني أن أرى عملكم الجاد وإخلاصكم في التحصيل الدراسي لمستقبل وظيفي وعلمي ناجح قد أتى أكله. فبالنيابة عن أسرة كلية العلوم والدراسات العامة من هيئة تدريس وإداريين وطلبة أقدم لكم أطيب التهاني بمناسبة تخرجكم من جامعة الفيصل.

كانت سنوات دراستكم في الجامعة مثمرة، و شاهدة على جهود هذا الصرح العلمي والعالمي المتميز في تخريج طلبة واعدين نراهم قادة للمستقبل، قادة يخدمون الوطن ويسهمون في رفد الإقتصاد الوطني القائم على المعرفة.

Dr. Saad Al Shehri

Dean, College of Science

Dear Class of 2017

I am delighted that your years of hard work and dedication to your academic success and future career have paid off. On behalf of the whole team of the College of Science and General Studies, I would like to extend to you our sincere congratulations on your graduation from Alfaisal University.

Your time here at Alfaisal has been well spent as you have both benefited and witnessed the University's effort to advance as a world-class academic institution that turns out

promising graduates, the future leaders who will serve in moving our country towards a knowledge-based economy.

Thank you for helping to make Alfaisal University a better place to live, to learn and to excel.

As you continue on your chosen paths, remember that you are always welcome at Alfaisal University. We look forward to seeing you back in the near future as visiting scholars, faculty, VIPs or dignitaries, distinguished

employees in your respective work places, or future alumni and parents of alumni.

Your fellow graduates, faculty, staff, and I commemorate your accomplishments here at Alfaisal, and hope to hear about your future achievements.

Congratulations again, and you are always welcome at Alfaisal- your new alma mater!
