صاحب السمو الملكي الأمير خالد الفيصل

رئيس مجلس الأمناء

HRH Prince Khalid Alfaisal

لحظة قطاف بهيج، وزخات عطر
باذخ، ونحن نحتفل بياكورة الثمر
الواعد لهذه الجامعة العصرية
الفتية.

وكم يسع مؤسسة الملك فيصل
الخيرية، ومجلس أمناء جامعة
الفيصل، أن يزفوا إلى المجتمع
السعودي - والعربي - النخبة
الخامسة من طلبة وطالبات
هذه الجامعة، والذين أنهوا
دراساتهم في تخصصاتهم
العلمية المتعددة وحصلوا على
إجازتها، التي تؤهلهم لخدمة
مجتمعاتهم، في المجالات
الحيوية، التي أتقنوا معارفها -
النظرية والتطبيقية - في بيئة
أكاديمية متكاملة، توفرت لها
كل أسباب العصر. وقد أقامت
مؤسسة الملك فيصل الخيرية
هذه الجامعة - ضمن أنشطتها
المنهجية - تفعيلاً لرؤية الملك
الشهيد - برحمة الله بضرورة
قيام صرح علمي، يقدم البرامج
الأكاديمية التقنية المتخصصة،
بأفضل المعايير المعاصرة،
بالتعاون مع أفضل جامعات
العالم.

وقد حظي المشروع - منذ بدايته
بالمباركة والدعم الكريم من
سيدي خادم الحرمين الشريفين
الملك عبدالله بن عبدالعزيز،
وسمو سيدي ولي العهد، ما
أكسبه زخماً وعجل مسيرته.
كما تداعى لدعم هذه الجامعة
نخبة من الأخوة الأفاضل - في
المملكة، وخارجها - إيماناً منهم
بتوسيع نطاق المسؤولية
الاجتماعية في خدمة تنمية
الإنسان العربي، ليكون قادراً
على المنافسة - منتجاً وفاعلاً
- في حلبة السباق الحضاري
العالمي.

وقد أسهمت كل هذه
المعطيات في تأسيس
الجامعة، بالخبرة العصرية
العالمية في شتى المجالات،
وعلى أساس نظام من القيم
والأسس الرفيعة، تتجلى في
منظومة سياساتها ولوائحها
ومنهجية صنع القرار، والحوكمة
المسؤولة، وهيئة تدريسية
بكفاءات مهنية عالية، تقدم
المثل والقُدوة لطلابها
وظالباتها، علماء وعملاً وسلوكاً.

واليوم وأنا أطلع المشهد
أباهي بأبنائنا وبناتنا، شبابنا
في عمر الزهور، وثماراً يانعة
لهذه الجامعة، وأستعيد مشوار
التفكير والتدبير والإعداد لهذا
المشروع الحيوي الكبير، حتى
شهدت حفل غراسها، ومضى
الوقت سريعاً لأشهد اليوم
الحفل الخامس لخريجها، ولا
أشك أننا نعتز ونتفائل بهؤلاء
الخريجين، وهم يغادروننا - على
تواصل - مسلحين بالعلم النافع
مُتوكلين على ربهم ، لإعمار
الأرض إنفاذاً لمشيئته جل وعلا.
وإليهم أتوجه بخالص التهنية،
وأحيي فيهم ذأبهم على المزيد
من العلم والمزيد من النجاح.

كما أتوجه بالشكر إلى كل من
أسهم في هذا الصرح العلمي
الباسق، حتى غدا منارة في
رياضنا العاصمة لخدمة مجتمعنا
وأمتنا العربية. إلى المزيد من
التقدم والنجاح وبالله التوفيق.

It is a wonderful moment, heavy with the delicious smells and scents of the new harvest, as we celebrate the gathering of the first fruits of this modern young university.

We, the King Faisal Foundation and the Board of Trustees of the Alfaisal University, are delighted to present to Saudi Arabian society - and to the Arab world - the first elite cohort of young men and women of this university, all of whom have completed their studies in their various scientific pathways and have obtained the degrees which qualify them to serve their communities in a variety of crucial fields of vital application to our modern society - fields in which they have demonstrated competency in both theory and practice. The King Faisal Foundation established this University as part of its education mission to realize the vision of the martyr king - Allah Bless his soul - of establishing a scientific institution that offers specialized academic programs having the best and most up to date formats and resources, cooperating with the best universities overseas.

This noble project, since its beginning, has enjoyed the support of the Custodian of the Two Holy Mosques, King Abdullah bin Abdul Aziz, and the Crown

Prince, which has given this mission momentum and pace. This university has also been supported by a distinguished élite of individuals both inside and outside the Kingdom, who took upon themselves the social responsibility of serving the Arab nation, enabling each individual within the walls of this institution to be a unique competitor on the race track of universal civilization. All these influences have contributed towards founding this university upon a solid base of international modern experience in its multi-disciplinary fields, and upon a base of high moral principles values. This firm grounding is reflected in the system of the university's strategies and protocols, in its regulations and making-decision processes, in its curriculum, in its governance, and in its competent teaching staff - hereby offering the requisite theoretic, scientific and practical ideals, examples, norms and values to its student body.

Today, as this ceremony unfolds before me, I am proud of our sons and daughters, the ripe fruit of this university, and recall the long journey of forethought, effort and planning that was undertaken to prepare for this great day, from the time that I presided over the laying of the first

foundation stone, till today, as I attend this ceremony of the university's fifth graduate students. It is no doubt that we are proud of, and optimistic for, these graduating students as they leave us, taking with them the benefit of knowledge bestowed upon them and, counting on Allah, to proceed hence to reconstruct and reform our world, and to give effect to the will of Allah. I congratulate them, and salute their perseverance in their pursuit of knowledge and success.

I thank, too, all who contributed to this place of science becoming a beacon of enlightenment in our capital, Riyadh, radiating commitment and service to our community and to the Arab nation.

I wish all of you success, progress and the blessings of Allah.

محمد بن علي آل هيازعه

مدير الجامعة

لم تعد جامعة الفيصل هي تلك الجامعة الناشئة فقد قفزت قفزات واسعة وكبيره في المجالات التعليمية والبحثيه واصبحت ولله الحمد في مقدمة بقية شقيقاتها من الجامعات السعودية الحكومية والأهلية.

ان هذا التطور الذي تشهده هذه الجامعة الشابه لم يأتي من فراغ وإنما كان بجهود وتخطيط من قبل القائمين عليها وفي مقدمتهم صاحب السمو الملكي الأمير خالد الفيصل رئيس مجلس الأمناء والذي كان ل دعمه وتوجيهاته السديده ومساندته الدائمة للجامعة اكبر الاثر في الوصول الي ما وصلت اليه كما ان ما يقدمت به مجلس الأمناء من دور فاعل ومتابعة مستمره وبالذات عضو مجلس الأمناء رئيس اللجنة التنفيذية صاحب السمو الأمير بندر بن سعود بن خالد الذي يتابع دائماً خطوات الجامعة و يذل كل الصعوبات التي تعترض عملها، كما لم يدخر صاحب المعالي وزير التعليم والمسؤولين في الوزارة جهداً لدعم الجامعة وتسهيل كل ما يعترض مسيرتها.

ان جامعة الفيصل قد انجزت ولله الحمد خلال العام المنصرم إنجازات تفتخر بها وتلك الإنجازات شاهد عيان على ما وصلت اليه من نمو وتميز لطلابها وأساتذتها ومن الانجازات الهامة التي تفتخر بها الجامعة على المستوى المحلي هو حصولها على الاعتماد المؤسسي الكامل من الهيئة الوطنية للتقويم والاعتماد الاكاديمي حتى ٣٠ ابريل ٢٠٢٣ م. اما على المستوى الاقليمي والمحلي فقد حققت الجامعة المركز الخامس عربياً وأتت في المركز الثاني محلياً مع جامعة الملك سعود والملك فهد للبترول والمعادن وفق تصنيف التايمز للتعليم العالي ، وسبق لجامعة الفيصل الحصول على

المركز رقم ١٢ من بين ١٢٥ جامعة عربية والمركز الخامس على الجامعات السعودية وذلك وفقاً لتصنيف US News Ranking لعام ٢٠١٦ م. وفي التصنيف نفسه حصلت كلية الطب على المركز الخامس بين ١٢٥ جامعة عربية والمركز الثالث على الجامعات السعودية.

اما في تصنيف Times للعام ٢٠١٦ فقد حصلت الجامعة على المركز الرابع علي المستوى العربي.

وايضا حصلت الجامعة في تصنيف Nature Index ٢٠١٦ على المركز الخامس على المستوى العربي والمركز الثالث على المستوى المحلي.

وتقدمت الجامعة في تصنيف QS للجامعات للعام ٢٠١٥ م من المركز الثامن الى المركز الخامس على مستوى العالم العربي اما على المستوى المحلي فقد حافظت الجامعة ولله الحمد على المركز الاول للمرة الثانية على التوالي في مجال النشر العلمي.

بالاضافة إلى تحقيق طلابها لسمعة عالمية في مجال الدراسات العليا وتخطيهم اختبارات القبول في ارقى الجامعات العالمية وينسب لم تحقها اي جامعة سعودية ومنها على سبيل المثال لا الحصر ما حققه طلاب كلية الطب حيث تقدم لبرنامج المطابقة الأمريكي عشرة اطباء من خريجي الجامعة فتم قبول تسعة منهم لدراسة الزمالة الأمريكية وهذه تعتبر اكبر نسبة على مستوى الجامعات السعودية.

إضافة الى فوز احد طلاب الهندسة بالجامعة في منافسة عالمية حيث امله هذا الفوز الى الانضمام الى فريق أكاديمية انفتني لهندسة الاداء للعمل لمدة ١٢ شهراً في الاكاديمية في انجلترا.

كما قامت الجامعة بعقد شراكات تعاون مع عدد من الجامعات

والشركات العالمية وتوقيع اتفاقيات ثنائية لغرض تطوير البحث العلمي وتوفير التدريب العملي المناسب للطلاب. لم تنسى الجامعة مسؤوليتها المجتمعية فهي تعي ذلك جيداً وتعتبره جزء من رسالتها ففي هذا المجال اقامت العديد من المعارض والمؤتمرات و المحاضرات التي اهتمت بجميع الجوانب العلمية والثقافية والاجتماعية والترفيهية.

وقد شرفت الجامعة بإستضافة عدد من الشخصيات المعروفة على المستوى المحلي والعالمي قدموا لمنسوبي الجامعة من الطلاب واعضاء هيئة التدريس خلاصة تجاربهم وخبراتهم للإستفادة مما لديهم من رؤى وتطلعات.

ان جامعة الفيصل تفتخر ايضاً بوجود نخبة متميزة من الاساتذة الذين لهم مشاركات بحثية يتم نشر أنتاجهم العلمي في ارقى المجلات العلمية وينظر اليهم بتقدير كبير ويتم اختيار البعض منهم وترشيحهم للانضمام لجمعيات علمية عالمية فقد تم اختيار صاحبة السمو الملكي الأميرة الدكتورة/ مها بنت مشاري عضواً في المجلس الدولي للكلية الأمريكية للأطباء وهذا يعتبر فخراً للمملكة وللجامعة ويعكس المستوى المشرف الذي وصل اليه الاطباء السعوديين.

ختاماً اتمنى لهذا الصرح العلمي الشامخ دوام التقدم والتوفيق واسأل الله ان يديم على هذا الوطن نعمة الامن والامان والرخاء في ظل قيادة خادم الحرمين الشريفين الملك سلمان بن عبدالعزيز وسمو ولي عهده الامين وسمو ولي ولي العهد.

Alfaisal University is no longer an emerging university as it has soared by leaps and bounds in the area of research. Alfaisal records one of the fastest qualitative growth rates in higher education in the Kingdom of Saudi Arabia. This achievement did not happen in a vacuum but was the product of a great effort and a visionary plan by those who founded the University. Led by His Royal Highness Prince Khalid Al Faisal, Chairman of the Board of Trustees, Alfaisal has prospered exceedingly and abundantly under his wise and steadfast leadership in furthering the founders' vision for the University.

We cannot forget the unceasing commitment and continuous follow-up of the Executive Committee and His Highness Prince Bandar bin Saud bin Khalid as it is he who has paved the way for all to perform at an optimum level for the University. His Highness Prince Bander Bin Saud Bin Khalid chairman of the executive committee, has spared no effort to both guide and to support the University.

Alfaisal University has completed most of its infrastructure, thankfully, and we are very proud of the contributions of our students and faculty in the numerous achievements recently. Most notable, Alfaisal received full-accreditation from the National Commission for Academic Assessment and

Accreditation until 30 April 2023. The U.S. News and World Report reviewed 125 universities for academic excellence and Alfaisal University received a ranking of 12th overall. For the Kingdom, Alfaisal received a ranking of 5th overall; for private universities, Alfaisal received a 1st place ranking. Moreover, the U.S. News & World Report ranked Alfaisal College of Medicine 5th overall in the Arab Region and 3rd in the Kingdom. Additional notable achievements include:

- The 2016 Times Higher Education ranked Alfaisal University 4th overall in the Kingdom.

- According to the latest QS Rankings for the Arab Region we have maintained our 1st place ranking for the third consecutive year in number of citations per scientific paper.
- Alfaisal moved up from 8th to 5th overall in the Arab Region for citations; the 2016 Nature Index has Alfaisal ranked 3rd and 5th for national and regional collaborations respectively. Academically, Alfaisal graduates have proven themselves to be exceptional as they have been accepted into some of the most world-renowned universities for graduate coursework as evidenced by one recent College of Science graduate who was accepted into three ivy-league universities. Our College of Medicine had the highest acceptance rate in the Kingdom for USMLE applicants as nine of our ten graduates were accepted

to sit for the US Medical Licensing Exam.

One of our College of Engineering students was selected by the Infiniti Performance Engineering Academy to work in the UK for -12 months as a team member in the automotive engineering division.

Alfaisal University's international partnerships and affiliations are integral to the level of academic excellence that we have both achieved and maintained in our brief history. Equally important, many of these partnerships have provided our students with excellent opportunities for both research and field experience.

The University remembers its responsibility to the local community and considers it part of its mission to sponsor exhibitions, conferences, and lectures that focus on scientific, cultural, social, and concerns of special interest.

Alfaisal was honored to host a number of well-known local and international guest speakers who shared their achievements, within their respective professions, with our employees and students.

Alfaisal University also boasts a distinguished group of faculty that maintains one of the highest rates for research publications in esteemed scientific journals for the region. Additionally, our faculty are members of some of the most prominent

international organizations. For example, Her Royal Highness Princess Dr. Maha Mishari bint Al Saud became the first female to be appointed Governor of the influential American College of Physicians' Chapter of Saudi Arabia. Both the University and the Kingdom can be proud of this prestigious appointment of a Saudi woman, faculty member.

In conclusion, I wish for our nation's continued progress and success. Asking God to continue to bless our country and to provide all within its borders continued safety, security, and prosperity under the leadership of the Custodian of the Two Holy Mosques King Salman bin Abdulaziz, and the Crown Prince Mohammed Bin Salman Bin Abdulaziz.

Best Regards,

To the College of Medicine's second batch of women graduates: Congratulations.

To the College of Medicine's fourth batch of men graduates: Congratulations.

The Hippocratic Oath is one of the oldest pledges known to mankind. When you recite the Oath, you are making a promise, and moving into a new chapter of your life as healers, knowledge seekers, and researchers. There is no honour as great as this: a life of service to humanity. I would like to share with you three moments that changed my life and my focus.

The first one, happened on my first night on-call as a medical intern at King Faisal Specialist Hospital. It was midnight and I was called to pronounce dead one of our young & long-suffering patient. He had passed peacefully. I walked into the room, and the father was standing to the side silently. He watched me as I examined his son and when I finished with my examination, he asked me, "Is he dead?" When I said yes, he said, الحمد لله lifted his hands الله أكبر and chanted.

That was my lesson in Faith, and how it takes you through life and all the life-changing moments that you are going to share with your patients and their families.

The second lesson happened a few months into my internship. I had made the decision to move to the United States, undertake all the qualifying exams and get admitted to a Harvard residency program. The Mass General program. Within 8 months I have hit all my targets.

As I returned home, I was told that I was not allowed to pursue my career in the United States. In fact, I did not even know if I would be able to practice for 4 months. I was totally in the dark regarding my future and what it was going to be. My amazing, generous and supportive cousin Princess Haifa Alfaisal and Prince Bandar Bin Sultan Bin Abdulaziz Al Saud told me when I was heartbroken about not going to Harvard that I would be adding value to Harvard.

I choose to honour and remember all the blessings in my life. The love and care of my parents, my family, my sister. The person I would like to remember most at this time, and I pray for, is King Abdullah bin Abdulaziz, the leader and father who set me free. Eventually, with his help, I was able to finish my studies in the US and qualify as a physician.

The third story is about Alfaisal University in 2008.

As I was congratulating His Highness Prince Bandar Bin Saud Bin Khalid Al Saud on the opening of the university, I asked him about admitting women. Having this world-class university with state-of-the-art facilities and top-notch faculty, when would they be admitted? For the people who don't know him he is a man of few words but great deeds, a visionary leader, whose meticulous planning is second to none.

He smiled at me and invited me to join the university. Not only that, he put me in a leadership position where I was only reporting to him.

By 2011, we admitted the first women students as undergraduates, and now you are the first batch of women to graduate from the College of Medicine.

Congratulations, everyone

A Welcome From The Dean

Thank you for taking the time to learn more about Alfaisal University. As a parent, you likely have at least three primary questions:

- What does Alfaisal offer my child and how is that unique among other universities?
- Can I afford Alfaisal?
- What are my son/daughter chances of getting into Alfaisal?

As a small-sized, private non-profit university located in the heart of Riyadh, Saudi Arabia, Alfaisal University features a unique set of academic offerings at the highest levels and a vibrant campus life, which is often described as idyllic.

Indeed, with our +125 student-led organizations, nearly 25 undergraduate and graduate majors in four colleges, and endless research and internship opportunities both on and off campus, Alfaisal University is consistently recognized among the top

universities in the Kingdom and the region. As an integral part of our mission, we strive to attract students from all over the country and the world who represent cultures worlds apart, and who come together on campus to form a cohesive community of scholars.

With our excellent financial aid policies, we are able to work with the majority of admitted students to help make Alfaisal education a reality. Our especial relationship with King Faisal Foundation allows us to offer outstanding financial aid packages, and to ensure that the majority of our admitted Saudi students and eligible non-Saudi citizens are offered a package to meet their demonstrated financial need.

In addition, we are neutral in our admissions process; students are admitted slowly on their merits and academic achievements regardless of their citizenship or gender. We

offer a holistic application review process and we consider all facets of each applicant's background. Because our entering first-year class is less than 650 students, admission to Alfaisal is necessarily selective, but we strive to maintain personal contact with you and your family throughout the process, and to offer you transparency in the process as often as possible.

I invite you to spend time perusing our website to learn more about Alfaisal. The best way to explore our university is to visit campus through one of our many campus visit programs or open house events. Please take every opportunity to learn what Alfaisal University has to offer and to ask questions of our admission team along the way.

Class of 2017, on behalf of the faculty and staff of Alfaisal University, congratulations on your achievements.

Alfaisal is committed to providing our students with the best possible education and skills to prepare them for their future careers. In order to succeed in this fast moving world our students need to be practically grounded and to be able to work effectively; they also need to be flexible and creative. Today's professionals need to combine a sense of entrepreneurship with an awareness of social and environmental responsibilities.

Alfaisal has built a reputation for involving students, faculty, and

alumni in a community of professional practice and of moral and intellectual inquiry. It has created a ground for creative students, physicians and strategists. You are prepared to succeed in making a difference in our culture, health sector and economy.

Your generation is mapping and shaping the future, and you are the active citizens Alfaisal wishes you all the best in your chosen careers and your personal life as well.

Dr. Bajis Dodin
Interim Dean,
College of Business

It's a great honor and pleasure for College of Business (COB) faculty, Staff and I to congratulate you. the Graduates of 2016 class.

To see you marching in the graduation ceremony with what is originally your national dress is a testimony to the fulfilment of the late great King Faisal's dream: It is a dream that came true where you have the best of Western Styled management education, at the hands of excellent faculty, in an Arab/Muslim context.

You have demonstrated that Faith, Knowledge and Performance are intertwined and the basis for successful leadership. This was demonstrated and

more so especially at the MBA level, as you were able to strike a balance between family, work and school and succeed; which makes the graduation even sweeter.

As graduates of Alfaisal CoB the best is yet to come. Yes you have been trained to be business professionals and leaders, capable of managing growth and change. Soon you will be immersed in the business world and expected to be the Kingdom's business leaders.

I hope you will always be successful and proud of Alfaisal University and of your accomplishments

“The pursuit of my MBA has been a challenging, yet very rewarding, journey. Alfaisal’s MBA program has pushed me out of my comfort zone and forced me to go beyond what I previously thought was my academic limit. Now that I can see the light at the end of the tunnel, I am more convinced than ever that I have made the right decision. I have gained tremendous knowledge of many facets of business and established great relationships with the faculty and other professionals in different areas and domains who are also working to sharpen their skills. I enjoyed this journey and made friendships for life.”

Thank you. You played the parent's role alone for quite a long time and you did greatly. Thank you for being there for me in smooth and rough days. My lovely three children, thank you for your understanding and appreciation, for all the quiet time during my exams. Thank you for your questions (Mom, did you get a full mark?) I love you. Finally, I want to thank my little sister for her motivation and inspiration, she used to say if I could do it and get the master's, then for sure you could do it. All my thanks and appreciation to Alfaisal University for this amazing journey. Special thanks to all of my respected professors and teachers.”have taught us. Finally, to my surviving classmates, it has been a pleasure being with you, and looking forward to hearing about your great accomplishments.”

“I remember my first day at College of Business, it was the interview day with the MBA director, leaving his office with the acceptance, I was confused and not happy because I don't want to be under pressure of being a mom, working and studying. But, with the help of my family I have overcome these difficulties to reach today's feelings; I am happier, stronger and proud of my achievement. First, I want to thank my parents for believing in me, as usual. Mom and dad, your love, care, presence and prayers are the real push to my success. My dear husband, the hardest step is the first step of initiation; you did that for me by filling and submitting all my documents.

"As a kid, I've always heard
about the transformative
lessons and spectacular steps
one takes during his time at
the university. When I first
stepped foot in Alfaisal and
experienced all that it has
to offer, I soon realized that
one's steps don't have to be
hefty and spectacular; they
can be small and steady and
still be just as incredible. I've
learned to work diligently,
ignite my creative spirit,
and build my resilience in
this institute through the
cherished encounters with
the faculty and my classmates
throughout the years. Those
small steps I took lead me to
a bigger and a better place; a
place where I now recognize
that even the smallest of
differences can have a
monumental impact on our
future.

I would like to direct my
sincere thanks to my mother

Dr. Muhammad Anan
Acting Dean,
College of Engineering

Message of the Dean

Engineering is the bridge between sciences and humanities. Engineers apply scientific principles to advance the human condition, make the world a safer, better and more exciting place to be. The engineering education provides students with the joy of innovation and creation.

This year marks the 10th Anniversary of the College of Engineering at Alfaisal University. The college is considered as one of the fastest rising engineering programs in the nation. It has come a long way since its existence nearly

a decade ago. Today, the college is a vibrant entity where enrollment is growing, external research funding is increasing, infrastructure is improving, and the programs are receiving national and international attention. And that tremendous growth is expected to continue. The College of Engineering looks to the future with a tremendous sense of optimism and anticipation to advance even further.

On behalf of the College of Engineering, I warmly congratulate the class of 2017 and their parents for

accomplishing this task and wishing you all the best for all that you have planned for your future and career. You have acquired the necessary knowledge and skills to serve and fuel the economic and technological development of the Kingdom of Saudi Arabia and regions beyond.

Sincerely,
Dr. Muhammad Anan

أمضيت فيها أجمل سنوات
عمري، أربع سنوات من حياتي
كأنها ثوان في الذاكرة ولكن
هي نقلة في حياتي العلمية

A Welcome From The Dean

Dear Graduates

This year mark the tenth anniversary of Alfaisal university, a short time in the age of universities but was associated with great achievements.

When I shared the ambitious vision and mission of the university way before it start, it was a challenge by all means.

A world class, research, student center university looked too far but today Alfaisal university is living that vision.

At the college of medicine our students have positioned themselves as the best in the region through their achievements in standardized test nationally and internationally and through their published research, abstract presentation and community services.

Today our faculty comes in the top medical universities in research grants and citations.

Today we are competing for the top ranking nationally and regionally and worldwide among the young universities.

The success story is still in its early phases and I have no doubt that we will progress in all these aspects Thanks to our hardworking students and dedicated faculties.

Thanks to the distinguished leadership at the university and at the board of trustees Thanks to Alfaisal, a king with a vision that lead to a university with a novel mission

I am sure that the experience and information received by this research and reading will lead me towards a better future. ; It was a wonderful experience to work under my guides, Dr. Junaid kashir and Dr. Abdullah Assir. They always supported me and guided me. Their way of analysis, prompt response, brief and to-the-point instructions, vast knowledge in the subject, etc. have impressed me. I extend my thanks to Dr. Bavish Mistry for his continuous **help and support as well as encouraging attitude** towards me. "My experience at Alfaisal University was very productive, exquisitely unique, and enjoyable. I have learnt that success is the direct outcome of persistent attempts empowered by determination and optimism, regardless of the outcome of the attempts. A strong and academically competent individual is not the person who doesn't make mistakes, but rather the person who acknowledges and learns the most out of her/his mistake. I feel very grateful for all the support I have received from the College of Medicine throughout the past 5 years. I have also made lifetime friends who have refined and transformed the long, hectic journey into a bearable and, indeed, a memorable experience. However, through it all, every passing year felt like a milestone, and now we are here today marking probably the most important day of them all. For every blessing I have today, I thank my superheroes/best friends from birth, aka my Ma and Bopai. This day truly belongs to you, and celebrates you. To my Bhaiya and Bhabi and my beloved friends who constitute my support system, I can never thank you enough for always, always having my back through all the thick and thin. "It really is mind-boggling how much can occur in five years, and yet somehow time has jetted by. It's been a brilliant journey, laced with a whole lot of blood, sweat and tears all paralleled by an even more overwhelming amount of joyful memories. Or maybe they just seem joyful now that they're no longer active threats. My presence here today is the culmination of a billion acts of kindness by others added to a billion moments gifted straight from God. All that has taught me how much really goes into any kind of work. I'm grateful for all the experiences I've been able to learn from the academic and clinical endeavors alongside the social and research opportunities. But I'm most grateful for the people I have had to share my joys and struggles with, that is always the highest blessing of all. On the path ahead, I know we're all equipped with more than we will need and I know the colleagues turned friends I've had along the way will only grow to achieve further. Thank you for making this journey worth it."

"First and foremost, I would like to thank Allah for getting me this far! I have wanted to be a doctor for as long as I can remember, and that dream is finally about to come true! Alhamdulillah! This wouldn't have been possible without the unconditional love and support of my amazing family! Thank you Abbu, Mamoni and my role model/Bhaia/Olly, for believing in me when I didn't believe in myself, for inspiring me and for making all my dreams come true. My family is my biggest strength. To my nana nanu, extended family back home, my teachers and all my professors: thank you so much for everything that you have done! Wouldn't be where I am if it weren't for you all! Finally to my friends and my bengalis/my mains/ best part of med school, wouldn't have survived without you guys! Love you Fam!"

While the grad gown and cap make me feel pretty confident, I wouldn't be where I am without Allah's help and the constant support of my family and friends who make my life amazing! Not to forget our amazing seniors without whom this journey would have been anything but easy.

Congrats to my fellow graduates for making it this far. But this is just the end to a new beginning! May we all be where we can serve best inasha Allah."

“My journey at Alfaisal has been extraordinary. Looking back at us in our freshman years, it is truly amazing how our experiences have transformed us into the bright and refined individuals we are today. I feel extremely blessed for the many opportunities that Alfaisal CoM has given me, for being taught by such a diverse and brilliant faculty, and for having made the most incredible friends here at Alfaisal - all of this was only possible by the Grace of Allah. If I had to sum up what I learnt from my journey at Alfaisal, it would be: Faith makes the impossible possible. Your parents' du'aa is the most powerful tool with which you can be blessed. Knowledge will not give you some of itself till you give it all of yourself. It is an honor to be taught by an outstanding faculty. Being surrounded by exceptional friends makes every minute of your journey worth it. All praise and thanks are to Allah alone for making it to this day! الحمد لله الذي بنعمته تتم الصالحات”

"In 2011, I said, "If I don't do medicine, I won't do anything else". Starting the path of your dreams is great, but going on with the same passion is more substantial. Six years ago, my journey started. A story to prove that I've lived, a legacy of a team we've made. THE CHANGE! Alfaisal turned out to be the place I was destined to be in. I am thankful to everything I've encountered and everyone I've met; my beloved family, team and all the beautiful souls. It wasn't easy, yet I've enjoyed each minute as if it were my last and I regret none. I've learned that we all have this one life to live, and we have the ability to accomplish anything... IF we love and have faith in what we do.

the most selfless person I have ever encountered is an understatement. My father who teaches me not to take everything so personally and laugh it off. I thank you and truly appreciate you Mom, Dad, Alya, and Tala."

"The past 6 years in Alfaisal has been the biggest emotional roller coaster of my life. It has been a constant struggle of losing and gaining. You lose time to study for a test; you gain speed and drive. You miss a very important class; you gain independence and self-learning. You miss meals during the day; you gain a flat stomach by the end of it. Although it was draining, it really has shaped me to become the strong person I am today. Through my fellow colleagues, teachers, and patients, I have learned to be grateful, humble, and, most of all, patient. I would not be standing here today if it weren't for the amazing support system that has guided me during this journey through the good and bad: My mother who inspires me every day to get up and want to help. “I would not say it was easy, but I have made it! Coming from an Arabic high school, with no intentions for studying medicine, yet I have done it. My parents are not doctors but they made one. Today, I look back at the 5 years and I thank Allah Almighty, and then my parents, who made this mission possible and provided me with their time, effort and everything they could have provided and even more than their capabilities, so today I can stand here and be proud of myself. And I can't and would never be able to thank my brother Yasir enough for his sacrifice, love and care. Words will never do justice for him. So, I simply ask the Almighty to reward him here in this life and the Hereafter. However, after all the efforts I have realized that this is just the beginning. This is the first step towards the real life, with all the responsibilities. There are still miles needed to be travelled to reach the destination. May Allah purify our intentions and accept our deeds.”

When I was six, mommy

we are rounding at KFSH!
Thank you dad for believing
in us! From the day you
knew you’ll be having twins,
you hoped they would be

"What a better way
to celebrate my 10th
anniversary with Alfaisal
than to graduate from
Alfaisal again! It has been a
spectacular 10 years full of
joy and experience. A voyage
that started at the harbor
of my beloved medical
school as its first student
ever, marking the beginning
of a wonderful journey
that continued till today.
I sailed through the seas
of medicine till the shores
of success and prosperity,
holding with pride its
honorable medical degree.
Then came the breeze of
a new chapter, titled by
teaching as a proud faculty
amongst our loving family.
And today, as I graduate
and receive my master's
degree, I stand holding my
head up high, honored to
be the first to ever hold two
of Alfaisal degrees. Thank
you Alfaisal for making me
who I am today and for this
extraordinary, priceless and
joyful cruise. #Alfaisal_for_

April 2017, 27 will be one of

however, it is also a time of
celebration of achievements
and a beginning for the
new graduate. I’d like to
thank the two major factors
behind my success; Mom

support, for the endless love
they’ve given me. As well as

Deans Message

It gives me great pleasure to cordially welcome you all to the College of Science and General Studies (COSGS) at Alfaisal University, a foremost college that sets itself the task of nurturing science, the «key to innovation and inventions,» and the foundation for advancement in all other branches of knowledge. I am extremely proud to be part of this diverse, competent and vibrant academic community dedicated to offering quality science education; groundbreaking scientific research; outstanding service to the local community; and running in parallel with a prosperous Alfaisal University Preparatory Program (AUPP).

As a key performance indicator I am truly delighted to report that in The 2018 Times Higher Education World University Subject Rankings Alfaisal University placed # 300-251 in the world for the Life Sciences subject ranking. This year's Life Sciences subject ranking was expanded to include 500

institutions (<https://www.timeshighereducation.com/world-university-rankings/by-subject>). Only three Universities in the Kingdom were listed in the top 500. Life Sciences at Alfaisal University was ranked 2nd in the Kingdom as well as 2nd in the Arab region.

The College brings together nationally and globally eminent scholars in disciplines at the center of scientific inquiry, as researchers and educators who take to heart the college vision and mission of supporting its students to achieve their academic and professional goals. Our well-developed academic departments and programs encompass the spectrum of life sciences, chemistry, physics, mathematics, nanoscience and nanotechnology, in addition to humanities and social sciences.

Our students receive a novel, robust and career-focused education, along with advising and guidance through the years of their study. As doing research is not just an assignment but a vital interest, we get our students earnestly

involved in both field and lab research. In particular, our promising students of life sciences and of nanoscience and nanotechnology are directly engaged in pioneering research projects in their respective areas of study and interests, and they constantly receive immense support and guidance from our renowned scientists. College programs contribute to the Saudi knowledge-based economy. Indeed, we take great pride in our alumni who are either pursuing their higher education in highly reputed universities such as KAUST (King Abdullah University for Science & Technology), or enjoying the positions for which they are eligible in the Saudi job market, and beyond.

We welcome you to join our science programs.

Warmest regards

above all the scientific knowledge. Besides, the two years I spent in the research lab conducting my research, assisting undergraduate students and keeping up with my classes, assignments, homework and reading articles was very challenging for me. However, I am very proud of myself that I was capable of doing all that! Really, it was a valuable experience and I had the feeling of satisfaction and accomplishment. It strengthened my time management skills, helped me build connections with people, and, at the same time, I enjoyed working with a helpful and friendly research group."

"It gives me a great pleasure to say with pride that I have completed my post-graduation in Nanoscience and Nanotechnology at Alfaisal University. The relationship between faculties and students was very cordial; which gave me an opportunity to excel in my area of interest. The two years spent here were splendid and have helped me to grow better professionally and personally. I would like to thank my family, all the faculties and staff for the encouragement that can never be underestimated in contributing to making me a Better Person."

"كم تمنيت هذه اللحظة، لحظة
التخرج التي انتظرتها كثيرًا.
فخورة كثيرًا بنفسي بأنني
صعدت طوال هذه السنين رغم
مرارتها ورغم التعب والمشاق
التي مررت بها، بأنني ولله
الحمد أتممت مسيرتي، ومتيقنة
أن الله سيكتب لي الأجل في
حياتي وسيرزقني على صبري
فرحًا. أشكر من كل قلبي منزلي
الثاني الفيصل الذي احتضنا
طوال هذه السنين، وأتمنى أن
تظل صرحًا تعليميًا شامخًا كما
عهدناها".

number of national science institutes. It provides a track for nano-medicine and nano-diagnostics thesis option with a focus on biotechnology and translational nanoscience in medicine, and it is strengthened by its association with a research project. The MNT program, like all of AU under- and post-graduate programs, are delivered in a unique environment of higher education that integrates the research and training in a distinctive modern educational setting. The facilities available to AU students are second to none and AU faculty are highly motivated and truly dedicated. The AU administration is always keen to support. Best wishes!”

“I am an MD, interested in applied and translational research in medicine. Advancement in the field of nanotechnology has revolutionized the twentieth century. Emerging nanotechnologies demonstrated great potential applications in biomedical sciences and could lead to medical breakthroughs in diagnostic and therapeutic techniques. The Master's Program in Nanoscience and Nanotechnology (MNT) at Alfaisal University appeared to me as a great opportunity to bridge the gaps between my clinical medical studies, translation and basic research. It is a very relevant and modern one, providing comprehensive knowledge of the theory, concepts, and methods related to use of nanoscience and nanotechnology. The MNT program at AU is a joint multidisciplinary and interdisciplinary program of several collages at AU and collaboration with a
